

Public Comment Form

Public Scoping Meetings:

March 23, 2011 – Lakeland

March 25, 2011 – Punta Gorda

This Areawide EIS (AEIS) will address issues raised regarding the potential direct, indirect, and cumulative effects of continued phosphate mining in the Central Florida Phosphate District. The AEIS Team is actively engaged in the public scoping process defined under NEPA, during which input is being solicited from agencies, other stakeholder groups, and the public regarding the proposed actions (permit issuance), alternatives warranting consideration, and the associated impacts under the alternatives carried forward into the evaluations ahead. This comment form is provided to facilitate your submittal of comments and opinions regarding topics that you feel should be included within the AEIS evaluations to be done during the course of preparation of the AEIS. The scoping comments period is scheduled to run through April 25, 2011.

Please note that any information (including personal identifying information) received through this form may be made available to the public online or in a paper docket, unless the comment includes information whose disclosure is restricted by statute. Do not submit any information that you do not want released to the public. Electronic files should avoid the use of special characters or any form of encryption, and should be free of any defects or viruses.
